## GRAND JURY MAY REPORT LATE TODAY

For or Against the Indictment of Mrs. Florence Carman

### MAY WITHHOLD VERDICT

Until Sometime Tomorrow—Several Witnesses to Testify, Including One Who Claims He Saw Woman Fire Shot and Enter Back Door of Carman Home.

(Associated Press Telegram) Minnola, N. Y., July 16.—The grand jury weighing the evidence against Mrs. Florence Carman, locked up on the charge of slaying Mrs. Louise Bailey, who was shot down in Dr. Carman's office on the night of June 30; last, was expected to vote for or against an indictment late this afternoon.

District Attorney Smith in so announcing today said that the verdict probably would not be made public until tomorrow. But three witnesses, Mr. Smith continued, were to face the grand jury today with the possible exception of Mrs. Carman herself. Whether the jurors would receive her and permit her to make a statement was a point which had not been determined this forenoon.

Several witnesses remained to be examined today by the Nassau County grand jury in its investigation of the murder of Mrs. Louise Bailey on June 30 last in the office of Dr. Edwin Carman at Freeport. The case of District Attorney Smith against Mrs. Florence A. Carman who is in jail here charged with the murder, was practically completed yesterday and little of a sensational character was expected to be brought by the witnesses today.

The announcement by the district attorney that he would not call Edward T. Bards, whose testimony before the coroner practically resulted in the charge of murder being placed against Mrs. Carman, caused much surprise. The defense it is said, was prepared to attack Bards' testimony. The district attorney also said that he would not call Mrs. Ida Powell, Mrs. Carman's sister nor her daughter, nor Mr. and Mrs. Platt Conklin, her father and mother before the grand jury. Still another surprise to the defense was the announcement by Mr. Smith that Mrs. Carman herself, would not be permitted to tell her story to the grand jury until that body granted her request to appear. If Mrs. Carman does testify, Mr. Smith said, he would not ask her a single question, and, if he could prevent it, he would not permit questions being put to her by jurors.

Among the witnesses today are Dr. W. M. Runcie, who said that Mrs. Carman told him of the telephone device the night of the shooting; and Mrs. C. E. Corby, daughter of Mrs. Ida M. Powell. The latter had not been served with a subpoena last night but detectives were hopeful of finding her today.

After the grand jury had examined the three witnesses—Dr. Runcie, Mrs. Corby and Phineas Seaman, a detective—District Attorney Smith recalled Frank Farrell, who claims that he was at the back door of the Carman home when the shot was fired and saw a woman dart around the house and into the door near which he was standing.

## FOUR WERE SHOT DURING FIGHT OF RIVAL GANGSTERS

(Associated Press Telegram) Omaha, Neb., July 16.—Four persons were fatally shot last night during two fights between rival gangsters, in one of which 300 men and boys engaged and which brought riot calls to police headquarters in each instance.

The four fatally hurt are: Nels Lind, 16; Fred Schroeder, 35; Nels city councilman; Peter Schroeder and William Rapp.

All four received one or more bullets through the body and all are said by physicians to be fatally injured.

(Associated Press Telegram) Chicago, July 16.—"In many instances mental diseases are due to physical causes and should be met by physical measures," said Dr. Carl W. Sawyer, of Marion, Ohio, to the convention of alienists and neurologists in session here. Dr. Sawyer declared that in the study of 2700 cases he found that a physical ailment was virtually always the cause of mental defects, and that physical causes are mere side roads, he asserted.

"The physical side has attracted so much attention that the physical has been lost sight of," said Dr. Sawyer. "I am convinced that wherever physical conditions are not shown to be the causes of psychic states, it is due to the weakness of the investigator and to the immaturity of his methods rather than to the absence of a physical cause."

The defective elimination and highly increased red corpuscle proportion in the blood, are present in the largest class of insane cases, Dr. Sawyer asserted. Treatment to overcome these conditions and develop an increase in the white corpuscles is effective he said.

## CARPENTIER WINS TONIGHT'S FIGHT IN SIXTH ROUND

(Associated Press Telegram) London, Eng., July 16.—The Carpentier-Smith fight lasted only six rounds tonight. Round one started at 10:00 p. m.

Smith got two right jabs to the Frenchman's body. In the first clinch which followed soon, Carpentier gave Smith a hard short hand drive on the cheek with a left. Both dodged right handers. Smith gave the Frenchman a hard one on the face with the right. A right and left body blow in fighting were Smith's offerings. Smith's blows were harder than the Frenchman's, whose footwork had not yet been in evidence.

Sixth Round: Carpentier held his head apparently in great pain, though it seems Smith's blow hardly touched him. The Frenchman's seconds took him to his corner while the crowd hooted loudly.

The referee decided Carpentier had won. Smith remained in the ring. He and his seconds protested against the decision. When Smith left the ring after some seconds the crowd jeered and hooted him.

## MASSILLON WINNER FOR STATE MEET

Rural Letter Carriers Closed Their Convention Today

### OFFICERS ARE ELECTED

To Serve for Ensuing Year and Delegates Are Chosen to Attend National Convention at Washington, D. C.—Delegates Had Good Time Here.

The twelfth annual convention of the Ohio Rural Letter Carriers' association closed shortly after noon, Thursday, with an exciting finish, selecting Massillon as the place for holding the 1915 state convention, and electing D. E. Bowers, Wooster, O., president.

Toledo's bid for the state convention fell down and before tellers had half finished the count between Massillon and Toledo, a motion to choose Massillon unanimously prevailed.

There were just two candidates entered in the field for the state presidency, Bowers, and Elmer J. Coburn, of Lisbon.

L. P. Reynolds, was elected vice president without opposition, as was also State Secretary R. E. Ratcliffe, of Kenton, O., for his second term.

C. L. Stonebraker was selected as treasurer, and the retiring state president, P. J. Powers, was selected delegate-at-large to the national convention to be held next month in Washington, D. C.

Postmaster H. B. Sibila, of Massillon, together with J. H. Thomas secretary of the Massillon Business Men's association, addressed the convention in behalf of their city.

Editor W. D. Brown, of "The News," Washington, D. C., accompanied by Mrs. Brown, arrived during Thursday forenoon and held an informal reception. Editor Brown addressed the delegates briefly, giving an insight into service conditions and facts about Washington. He took occasion to compliment the Seventeenth district on its representative in congress, Hon. W. A. Ashbrook, declaring him faithful and loyal representative of his district as well as an ardent worker in behalf of rural carriers.

The committee on memorials, submitted resolutions in memory of three departed members of the Ohio association, Stoner, Stubbs and Rogers, and the convention arose to its feet and stood for one minute in silence out of respect for the deceased members.

Resolutions were adopted as submitted by the resolutions committee without a single alteration or dissenting expression. These resolutions expressed appreciation to the citizens of Newark, the officials, the musicians, the press and the Licking county association.

The convention went on record as approving the efforts of Postmaster General Burleson and his department, recommended the listing of Christmas days as a legal holiday for rural carriers, and voted to use influence to have the word "postmen" substituted for "letter carriers" in the official title.

It was the expression of the resolutions that the orders of the department requiring rural carriers to report at the office on holidays should be rescinded, and that rural carriers (Continued on Page 9, Col. 4.)

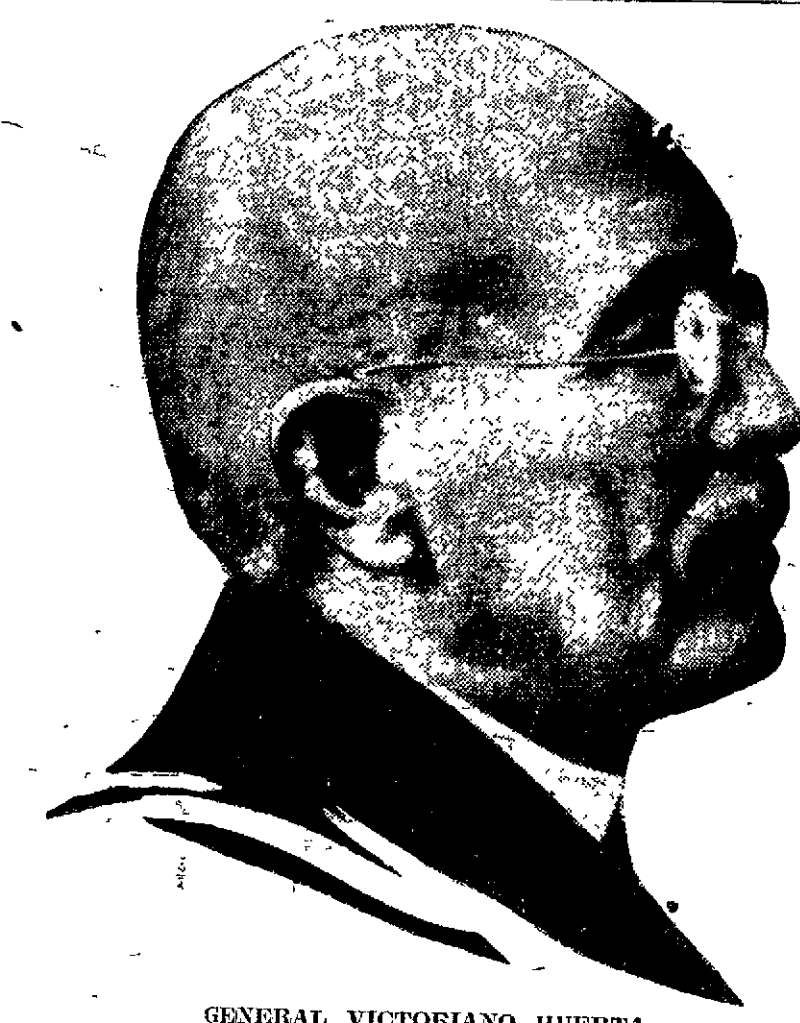

(Associated Press Telegram) Pittsburgh, Penn., July 16.—By the decision of the flint-glass workers, in national session at Rochester, Penn., this week, the flint-glass factories of the country will resume work next Monday pending the settlement on the wage scale. The decision was communicated today to all flint-glass factories that are under the domination of the union. The joint wage conference between the workers' representatives and the manufacturers will convene next Monday at Atlantic City.

## REYNOLDS ASKS FOR PARDON BUT PETITION REJECTED

Columbus, July 16.—The man whom he was convicted of killing never died, and testified against him in the trial, is the claim of Frank Tierney of Erie county, now serving a term in the state penitentiary for first degree murder. The state board of pardons today refused to believe Tierney's story and rejected an application for pardon. Six pardons or commutations were recommended by the board and eleven applications were rejected.

Among the applicants who must serve their term is Doc Reynolds, Licking county, robbery.

# Huerta Resigns In Favor of Carbajal and Former Dictator Now In Flight From Country

GENERAL VICTORIANO HUERTA

## Redpath Chautauqua Opened Today Under Favorable Auspices

Tonight's Program:  
7:30 o'clock—Concert—Ziegler-Howe Orchestra Club.  
Character Studies from Life—John B. Ratto.

Friday's Program:  
10:00 o'clock—Morning Lecture, "The New Education"—Prof. York.  
2:30 o'clock—Afternoon Concert—Collegian Male Quartet.  
Interpretive Recital—"Peg o' My Heart"—Mary Agnes Doyle.

Children's Hour—Miss Carroll.  
7:30 o'clock—Evening Concert—Collegian Male Quartet.  
Lecture—"On the Trail of the Immigrant"—Dr. Edward A. Steiner.

With the huge tent in place, surrounded by the white canvas fence which flaunts in large red letters the words, "Redpath Chautauqua," the grounds at Sixth and Main streets was a busy place all of Thursday morning.

The crew men, Messrs. H. A. Patton, C. T. Colt, A. W. Collins and W. L. Brown, arrived early Thursday morning from Logan, O., and the work of placing the benches and platform was commenced at once. Seats to accommodate 1400 people were placed today and if the crowd fills the seating capacity can be increased to 2500. They have 175 benches with eight persons to a bench and chairs for 400.

The work is all done by college men. Mr. H. A. Patton is a graduate of Antioch college and is head usher and electrician for the Chautauqua. W. L. Brown is principal of the Wauson high school, and graduated from a college in Wisconsin. C. T. Colt is cashier for the local entertainment and is a senior at Ohio State university. A. W. Collins, the property man, and in charge of the construction, is a graduate of the University of Wooster, and is a teacher in the Blind school at Columbus.

Superintendent George J. Dann is from New York state and is a graduate of Union college. He is superintendent of the Oneonta, N. Y., schools. Superintendent Dann will be in charge during the stay of the Chautauqua in the city.

The Redpath company is a vast concern. In this district there are nine shows which are constantly interchanging. Seven of these outfits, which includes the large show tent, the four small tents for the sleeping quarters of the crew and the dressing tent for the talent, are constantly in use, while two are always moving to make ready for the show in the next city.

At the local grounds there is but one entrance, that is one, the Church street side of the square, but there will be a number of exits.

The Chautauqua proper opened this afternoon at 2:30 o'clock and will continue until July 22. A large audience assembled under the mammoth tent and even though it was in complete readiness for the initial program, the exercises were opened by the superintendent, Dr. Dann of New York, who welcomed the big audience in a brief, pointed address and then presented the Ziegler-Howe orchestra club. This company, by the merit of the program and its sympathetic rendition, won the approval of all music lovers.

The lecture of the afternoon by Mrs. Leonora M. ("Mother") Lake was one of the strongest appeals ever heard in this city. Her pleasing voice, her sound sense and her earnest appeal for the rights of the child aroused a kindred feeling in the heart of every man and woman present.

In tonight's program there will be a "double header." First, the Ziegler-Howe orchestra club will give a high grade concert with solos, duets and quartet. Mr. John B. Ratto will give his character studies from life, and this entertainment is one of the Redpath's standard attractions. Tonight Mr. Ratto will depict what a German thinks of our laws, how an Irishman holds court, and how a minister disapproves of football.

The members of the City Federation of Women's clubs is making a mighty effort today to boost the seat sale much higher than the guarantee, and a mammoth audience is expected to be present this evening.

## Special Committee Has Left Mexico City To Arrange With Constitutional Leaders For a Peaceful Entry of the Troops Into the Mexican Capital

## NEW CABINET WILL BE NAMED SOMETIME TODAY

Message Conveying the Huerta Resignation Bitterly Denounced the United States Government—Deputy Blanco Hissed By the Public In the Galleries of the Congressional Chamber for Attacking American Politics—United States Will Extend Recognition to New Government if Peaceful Agreement is Reached By Carranza With the Carbajal Officials.

(Associated Press Telegram) Mexico City, July 16.—When General Victoriano Huerta and a large party of his friends, composed of former ministers of state, and prominent officials of his administration, stepped on the special train on their flight last night to Puerto Mexico, a strong escort of the 20th Mexican federal infantry accompanied them.

This is the regiment which has always been renowned for its loyalty to the former dictator and which had always formed his special guard at the national palace.

Only a few persons were at the station to witness the departure which evidently had been carefully planned.

A strict censorship was imposed today on incoming as well as outgoing dispatches.

(Associated Press Telegram) Monterey, Mex., July 15.—(Via Laredo, Texas, June 16.)—When informed of Huerta's resignation tonight, General Carranza, the constitutional leader, made no comment for publication, but a high Carranza official said he believed there would be no change in his attitude or the movements of the constitutional army but it would proceed to capture Mexico City. He qualified this statement by saying this plan might be changed in the event of unconditional surrender of the Mexican forces now under the new provisional president.

(Associated Press Telegram) Mexico City, July 16.—The change in government whereby General Victoriano Huerta turned over the provisional presidency to Francisco Carbajal, has been received by the populace. Besides the demonstration made in honor of President Carbajal when he was leaving the chamber of deputies building after taking the oath, no other outbursts of importance have occurred. There were a few shouts in the streets of "down with Huerta" and "viva Carranza," but the police promptly intervened, stopping all such demonstrations.

General Huerta, who remained in the capital some hours after his resignation, is in flight, probably on his way to Puerto Mexico, to join his family and friends who left for that port a day earlier.

General Aurelio Blanquet, his minister of war and strong adherent, went with Huerta when he left the city late last night, as did several other of his close friends.

Before leaving General Huerta went to the national palace, where he congratulated Carbajal, who replied that he would do all in his power for the country's benefit.

Later President Carbajal conferred with the sub-secretaries of the different departments, all the members of Huerta's cabinet having resigned. A new cabinet, it is expected, will be named during the day. The diplomatic corps has arranged to make a formal call on the new president on Friday. A significant incident in connection with the change of government was the announcement that a special committee had left the capital last night for Colima to arrange with the constitutional leaders for a peaceful entry into the capital.

The committee consists of Jesus Ureteta, Jose Ines Novels and Enrique Bordes Mangel former members of the chamber of deputies.

General Huerta's resignation was sent to congress late yesterday afternoon and accepted by the senators and deputies after a brief debate by a vote of 121 to 17. In the message conveying the resignation General Huerta took occasion to make bitter reference to the United States government.

Following the acceptance of the resignation Francisco Carbajal was appointed provisional president and he took the oath of office at the joint session of the senators and deputies two hours later.

A feature of the discussion in the chamber while the resignation of General Huerta was pending was the speech made by Deputy Masquez Blanco, who made a bitter attack on Americans and American politics. He was hissed by the public in the galleries.

All the newspapers issued extras on the day's events. El Pais, which was suppressed by the government two months ago, reappeared last night. The designation of Francisco Carbajal for the provisional presidency was received throughout the republic, according to reports reaching here this morning.

The fact that the new president is a civilian contributed to win for him the sympathies of the Mexican people who appear to have become tired of a military dictatorship.

Although almost all the troops of the garrison of Mexico City left with General Huerta and the members of his family, complete quiet has prevailed here today.

General Jose Refugio Velasco received the appointment of minister of war early this morning and was sworn in at 11 o'clock. It was expected that other ministerial offices would be filled later today.

(Associated Press Telegram) Washington, July 16.—President Wilson will not recognize Provisional President Carbajal nor any other government in Mexico not set up through a local election or in accordance with the protocols signed at Niagara Falls.

Despite the resignation of General Huerta he will continue his watchful waiting policy until the Mexican situation is more clarified.

The expectation of the administration is that arrangements will be made for the peaceful entry of the constitutionalists into Mexico City in case Carranza and his generals finally refuse to accept President Carbajal, pending the holding of an election.

President Wilson believes other nations will not recognize any new government until the United States has indicated its attitude. For that reason he thinks that the constitutionalists will be very careful in their procedure. The President is understood to have no objection to Carbajal, except on the score that he derived his power from Huerta, and is willing to accept him if the constitutionalists will agree, as provisional president until elections are held.

White House officials were confident today that the constitutionalists would be temperate in their acts when they enter Mexico City. They believe there is no danger of wholesale killing or looting.

Senor Riano, the Spanish ambassador, called upon Secretary Bryan today to make representations for the safety of Spanish citizens in Mexico City. He was unable to say whether the Spanish embassy would continue to represent Mexico in the United States under Provisional President Carbajal.

## Failure of Confirmation May Interfere With Launching of Country's New Banking System

(Associated Press Telegram) Washington, July 16.—There was no letup today in President Wilson's fight for the confirmation of Thomas D. Jones of Chicago for the federal reserve board.

Intimations that the nomination might be withdrawn from the Senate were vigorously denied by the White House officials who thought the administration's supporters had increased in number over night. Opponents of the confirmation were confident that they could beat it; the administration was still hopeful of victory though by a slender majority.

A letter endorsing Mr. Jones, signed by twenty-two large business concerns in Chicago was made public today at the White House.

(Associated Press Telegram) Washington, July 16.—Failure of the senate to confirm Thomas D. Jones and Paul M. Warburg as members of the federal reserve board within the next week, may lead to complications which will seriously interfere with the final preparations for launching the new banking system.

The current account speaks of the reserve board as a whole and bestows no powers on different individuals on that board.

The question has been raised whether the three members of the board confirmed by the Senate have authority to go ahead with the work of setting the bank machinery in motion, or whether they must wait for the confirmation of the other two members. It has been the opinion in some quarters that if the three members confirmed act in concert with Secretary of the Treasury McAdoo and Comptroller of the Currency Williams, there will be little question of the legality of their decision. In support of this position it was pointed out that concerted action by these five men would prevail if the other two members of the board were actually in office and could be approved if deemed necessary after the two yet to be confirmed have received the senate approval.

Although no settlement of the question has been reached, it is believed that the department will take the view that it is better to go ahead with the five members than to postpone the opening of the reserve banks.

## NO SENTIMENT WITH MANAGER AT CINCINNATI

**HERZOG ON RECORD THAT HIS  
POLICY WILL BE TO  
STRENGTHEN TEAM.**

**He is Backed by Liberality of Management for Purchasing Available Men.**

Cincinnati, July 16.—Nothing is being left undone by Manager Herzog and the Cincinnati club to build up the Reds for a hot finish this season, and to create a nucleus for a pennant-aspiring aggregation next year. The fact that the local management has invested \$15,000 in players during the past week, securing Outfielder Twombly and Shortstop Derick from Baltimore for this amount, and subsequently trading Derick to Chicago for First Baseman Mollwitz. Later in the week the club purchased "Tex" Erwin from Brooklyn to help out in the catching department, Tom Clarke, who has been the team's mainstay behind the bat since McLean was disposed of, being laid up with a broken finger. Other trades and purchases are contemplated by the club with the idea of landing in the first division this season if the right material can be secured.

Manager Herzog has placed himself on record as being opposed to allowing sentiment to dictate the policy of the Reds. "It's fine to show appreciation of the work of a player," declared Buck the other day, "but that mustn't prevent benching a player or getting another man in his place when he weakens. The first duty of a baseball club is to give high class sport to its patrons. In order to do this it is impossible to carry men on the strength of their past reputations. A club must have the men who can deliver the goods now, and when those in the line-up fail to do this, there is but one alternative—to get players who will deliver. We will continue to add men to the Reds' roster until we have a line-up that does things every day, instead of space-modically. We're getting pretty close to that condition now, and once we arrive there we'll go right through with cinching a place among the first four."

As the present series of East vs. West progresses, the race in the National League is tightening up considerably. New York has been coming back since the present series began, while Boston, at the other end of the string, has been coming forward, there being less than 200 points between the leaders and the tailenders. This is an extraordinary condition at this time of year, and indicates that the teams in the National are more evenly matched than ever before. The surprise of the season, next to the good showing of the Reds and the Cardinals, has been the failure of the Pittsburghers to strike the gut predicted for them, their present position—seventh place—being out of proportion to their supposed strength. Boston has hopes of overthrowing the Pirates before the present western invasion is over, and promises to use the Reds for a stepping stone in the coming series which includes a game next Sunday, July 19, when one or more new men will be found in the Reds' line-up.

With a prospect of losing every player who has jumped a contract to join the new organization and with gate receipts amounting to little or nothing, except in Baltimore and Chicago, the Federal league looks like a forlorn hope. With injuries pending against Chief Johnson, Armando Marsans and Hal Chase, and others in prospect so that the men who have jumped draw no salaries, it is certain that the "rubber-legal" is about over. It would be surprising to see the new league stick out the season, and if it does, it will require radical reorganization to put it in the running for another season.

## WEIGHT LAW TO BE TESTED IN COLUMBUS

Columbus, July 16.—Constitutionality of the section of the new weights and measures law of Ohio, providing that dealers use measures conforming to interior measurements prescribed by the state, is to be tested in a suit filed by Bert Williams and Charles Goldstein, fruit dealers. The agricultural commission had ordered a confiscation of all measures not conforming to the prescribed measurements. Williams and Goldstein claim that the authority to prescribe weights and measurements belongs only to the federal government.

## EASY TO DARKEN YOUR GRAY HAIR

Try This! Mix Sage Tea and Sulphur and Brush It Through Your Hair, Taking One Strand at a Time.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. For 50 cents you can buy at any drug store the ready-to-use tonic called "Wyeth's Sage and Sulphur Hair Remedy." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning, all gray hair disappears and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant. You will also discover dandruff is gone and hair has stopped falling.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur and look years younger. Agents, Hall's Drug Store.

Two trains of eight cars each were required to accommodate the Newark people who went to the Grocers' picnic at Cedar Point Thursday morning. There were 150 people in the crowd, and the two trains left at 6 o'clock. All of the grocers are closed for the day, and their friends are prepared for one of the greatest celebrations of the season.

## FRENCHMAN IS FAVORITE IN THE BETTING

(ASSOCIATED PRESS TELEGRAM)

London, July 16.—There was a great influx of sportsmen from France and other continental countries today to attend the twenty round fight between "Gunboat" Smith, the American heavy-weight pugilist, and Georges Carpentier, the European heavy-weight champion down for decision tonight in the arena at Olympia.

Among those who arrived were many Americans desirous of seeing their countryman in action against the popular Frenchman.

Many who came today and who had failed to book their seats in advance, were doomed to disappointment, as seats were selling at a premium.

Even the poorest ones yards away from the ringside were quoted at from \$15 to \$20, while those in the vicinity of the ropes were not obtainable at any price.

The fight has created more interest here than any pugilistic encounter since that between Peter Jackson and Frank P. Slain, about a quarter of a century ago, although no world's championship is at stake.

Carpentier today was still a favorite in the betting. Smith's backers were ready to accept even money but the Frenchman's followers seemed willing to place their money at any odds. It was difficult to estimate the amount wagered on the event as no central place for making bets exists in London, but it was known that practically everyone in the leading clubs and hotels had some money at stake.

The promoters of the contest will apparently make a considerable profit on their enterprise and will be compensated, it is thought, for the deficit on the recent fight for the lightweight championship of the world between Freddie Welsh and Willie Ritchie.

## BUMPER CROPS NOW ASSURED, SAY THE REPORTS

The Newark Trust company's monthly crop report issued today says that climatic conditions are almost ideal with the result that nearly every crop has gained in quality or condition during the past month. Much the largest winter wheat crop ever harvested in this country is that of this year. The government estimates the crop at 655 million bushels. Prospects for spring wheat have improved greatly. While the wheat crop in this country is the largest ever harvested, wheat conditions in all the African countries are less promising than last year. Most of the European wheat growing countries will have a full average crop.

The best estimates on corn place the coming crop at 2,800 million bushels compared with 2,447 million bushels produced last year, and 2,708 million bushels, the five year average. The oats crop will amount to 1,500 million bushels and be second only to the crop of 1912.

The barley crop will exceed 200 million bushels and may reach 210 million bushels if no further deterioration is reported.

The rye crop is sure to be larger than last year and last year's crop of 41 million bushels is our high record for rye production.

The condition of hay and meadow lands is unusually good and the hay promise is for 1.37 tons per acre, which would give us 68 or 69 million tons compared with 64 millions last year and 66 millions, the average.

The white potato crop is estimated at 380 million bushels compared with 322 last year and 357, the ten year average.

Prof. J. Warren Smith of Columbus estimates that the rains of the past few days in Ohio have been worth four million dollars to the corn crop.

## ONE DISMISSED, THE OTHER HELD IN BURGLARY CASE

Joe and William Donovan, who were suspected of complicity in the burglary of C. Pence's general store in Hebron several weeks ago, had a hearing before Mayor Bigbee at 9 o'clock Thursday morning and resulted in William being discharged as the evidence adduced was not enough to warrant the mayor in holding him. In Joe's case, however, a material witness is a railroad man and could not be present, so this will be heard later.

Elmer Samuelson, who has been on a leave of absence returned on Wednesday night to New York from which point he will go to Boston where he reports to the U. S. S. Chester, on which he is mechanical engineer.

## The Contest

Mrs. B. M. East, 19 Wyoming street: "I wish to thank you for my prize won in the Booklovers' contest. I enjoyed the contest very much and think it was fortunate to be among the winners."

Mrs. Will Hitchcock, 215 Elmwood avenue, writes: "Please accept my thanks for Prize No. 35 in your Booklovers' contest. Of course I am like all the rest, aimed to get a bigger prize, but missed. I thank you just the same for the prize I won, and can not find one fault with any of the pictures. Could have had more than 58 right had I sent them in but it was my fault, not yours. Hope you have another contest soon."

Miss Anna M. Lyon, Granville: "The Advocate certainly deserves great praise for the way the paper has tried to deal squarely with everybody during the whole contest. It has not been easy as many brickbats were thrown but every time the paper was fair to everybody. I have taken the Advocate many years, though I am no Democrat. I like the paper and so do not change."

## LITTLE MISSES CLEAR NICE SUM IN WORTHY CAUSE

Ten little girls, styling themselves the "Twentieth Century Club" were weary of play and the many novelties of vacation time were becoming a bit frazzled. They sat about in a group planning for something that would be real interesting—something new. Finally one, all aglow with enthusiasm suggested that they give a social. With just as much enthusiasm was the suggestion received, but what to do with the money? That was the momentous question and it was decided to buy nice, dainty little children's beds for the new hospital.

So the little heads got busy, and on Wednesday evening at the home of Edward Kibler, Sr. in Granville street, the social was given with the greatest success. The little girls, Helen Norpell, president, Elizabeth Kibler, secretary and treasurer, Laura Beggs, Mary Kibler, Hazel Colville, Dorothy Wilson, Mildred Simson, Anna Haynes, Mildred Eade and Fulton Eade, ranging in age from 10 to fourteen years, made all the preparations.

First one of the fathers was interested and he had tickets printed, then the merry little troupe invaded the Licking County Creamery where, so earnestly did they tell of the worthiness of the cause, that Mr. Davis, made them an excellent price on the very best ice cream. Then they solicited their friends for the cake and Baxler and Bradley presented them with the loan of the chairs and tables.

These busy little misses then gathered in the odds and ends of their collections of tokens and donated them for a fish pond which they erected. Also they made punch which was served at a cent a glass and a little booth dispensed candy made by the girls themselves. The lawn was aglow with lanterns and the people came and patronized and today the little group have over \$60 clear money, with which they will place in the new City Hospital nice, pretty, dainty beds for unfortunate little girls.

## GAVE ADDRESS ON THE MENACE OF MORMONISM

Rev. G. H. L. Beeman of Greencastle, Ind., field secretary for Indiana and Ohio, of the National Reform association, addressed a large audience at the Second Presbyterian church last night upon "The Menace of Mormonism."

Mr. Beeman among other things, stated that Mormonism has 500,000 members and adherents, mainly in this country. They have some colonies also in Northern Europe.

"Mormonism is a despotism and has remarkable control of the lives of its people. Mormonism is a strong factor in politics and its leaders have bargained with the leaders of a great national political party. In all these political deals their leaders have reached places of political prominence so that they are in a position to dictate the terms and guarantee the delivery of the goods."

"In business Mormonism controls great commercial enterprises, and makes no accounting to the government of the great property restored to the leaders, to be used in various good works. The poor, for whom it was largely intended, are denied a participation in this wealth."

"Mormonism believes in many gods, many Bibles and many wives. They say the husband must call his wife (or wives) from the grave in the resurrection. There is little hope for a resurrection for a woman who dies unmarried."

"The aristocracy of Mormonism is guilty of polygamy. The brainy and influential men are protected in it and thereby tied up to the church. The evidence of polygamous living is very strong and plain. A constitutional amendment is necessary to give the federal government power to proceed against this growing evil."

Mr. Beeman outlined the work of the National Reform association, calling special attention to the coming Christian Citizenship Institute at Winona Lake, Ind., August 3 to 20.

In One Minute Your Stuffy Nose and Head Clears, Sneezing and Nose Running Cease, Dull Headache Goes.

Try "Ely's Cream Balm."

Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone.

End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake tonight struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucus dropping into the throat, and raw dryness is distressing but truly needless.

Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear. J. D. Hall, 10 North Side Square, Newark, O.

## A STITCH IN TIME.

Newark People Should not Neglect Their Kidneys.

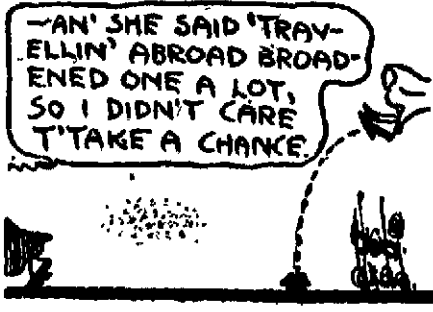

No kidney ailment is unimportant. Don't overlook the slightest backache or urinary irregularity. Nature may be warning you of approaching dropsy, gravel or Bright's disease. Kidney disease is seldom fatal if treated in time, but neglect may pay the way. Don't neglect a lame or aching back another day. Don't ignore dizzy spells, irregular or discolored urine, headaches, weariness or depression. If you feel you need kidney help begin using the reliable, time-tried remedy, Doan's Kidney Pills. For 50 years, Doan's have been found effective. Endorsed by Newark people.

Mrs. Charles Dudgeon, 433 West Church St., Newark, Ohio, says: "One of the family suffered a good deal from kidney weakness and backache. Doan's Kidney Pills, procured from A. F. ## Readers' View-Point

The Advocate assumes no responsibility for the opinions expressed in the column headed "Readers' View-point." Communications from our readers should be short, plainly written and should be signed though the signature will not be printed if it is so requested. These communications should be upon subjects in which there is general interest and they must be free from abuse or extravagant statements that tend to provoke controversy.

**Single Mail Delivery.**  
Editor Advocate:—This people of the North End are wondering why Uncle Sam has cut them down to one mail a day and that at noon instead of nine o'clock as it was before. It has materially inconvenienced many, who were in the habit of answering mail same day it was received. Now, to get orders for goods through the mail, to be delivered same day, they must receive their mail at the Post Office, and that means a walk of over a mile or ten cents to ride on the street car. And sometimes it means many dollars loss to a manufacturer if he can not deliver goods promptly. An hour in time of delivery of mail often means a whole day of delay in delivery of goods.—B.

**Thank You Kindly.**  
Editor Advocate:—As an old-time resident of Newark, I have been interested in your department headed "25 Years Ago" as it brings back memories of the long ago. I have often heard others speak of this interesting part of the paper. I want to compliment you for the new feature "Newark News of 15 Years Ago Today." I think it's a good thing to print matter of this kind.—Reader.

**Children's Sayings.**  
Editor Advocate:—I sent you an item the other day for your Children's Sayings department, but haven't seen it in the paper. Wasn't it available?—A. B. N.  
Your valued communication has been received and is on the "copy book." So many of our friends are now contributing interesting paragraphs to the Children's Sayings column that several days may elapse between the receipt and publication of the matter received. We shall gladly print what you sent and we thank you for having sent it.—Editor.

## STERILIZATION OR SEGREGATION FOR MENTAL DEFECTIVES

(ASSOCIATED PRESS TELEGRAM)  
Chicago, July 16.—"A feeble-minded man and a feeble-minded woman can produce none but feeble-minded children. Whether it is right to let such reproduce is a question so new that we have not as yet come to a decision that is either ethical or moral." Dr. Mary Pogue, of Geneva, Wis., in an address Wednesday on sterilization or segregation of mental defectives, before the convention of alienists and neurologists here, held that society had not yet been able to nerve itself to the enforcement of sterilization laws.

"Segregation probably will be more acceptable to the staffs of the various state hospitals than will sterilization," she said. "We have always had feeble minded with us," continued Dr. Pogue, "without knowing they were such near neighbors. When society informed of the great mass of them the first impulse is to do something about it at once. There are thousands in Chicago today who are on their way to hospitals for the insane. They are begging their kind, who will be feeble-minded." "We want the law to give us the right to sterilize all such, or to segregate them until old age. Such laws have been set aside as unconstitutional. Perhaps, that is best, as it has given us time to pause and study the situation more closely."

## TAKE SALTS TO FLUSH KIDNEYS

Eat less meat if you feel Backache or Bladder troubles you—Salts is fine for Kidneys.

Meat works uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night. To neutralize these irritating urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is an expensive, harmless and makes a delightful, effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

## Licking's Good Roads

Mr. R. C. Snyder, publisher of the Newark (Ohio) Reflector-Herald, drove through Licking County from south to north in his automobile the other day and when he reached home, wrote the following editorial for his newspaper, complimenting Licking County's good roads. If Mr. Snyder had taken a ride over the splendid new concrete road from Newark to Granville or had had a spin over the new pikes running eastward from Newark, he would know, sure enough, that Licking County is getting more than one first class road. Work is now progressing on the Linville pike and it will be but a short time until the famous old National road is paved through Licking County. This is what Mr. Snyder's paper has to say:

"There is a bit of good road making down in Licking county that it would pay all county commissioners of every county in Ohio to go and see and study. It is built more like an ancient Roman military road than any other stretch of road in Ohio. It leads from Newark south up over the hills to Thornville, on the shores of Buckeye lake, 12 or 14 miles distant. Literally a stone road, it is surfaced with a hard rolled concrete macadam, impervious to water and slightly crowned. While not level and slightly rolling, yet the road is marvelously built. Instead of crawling up over the crest of a hill it cuts through, sometimes as much as fifty feet deep, down through solid rock. All its distance this great roadway is from 30 to 40 feet wide, and portions of it are more than a mile long and at times 40 feet above the level of the surrounding country. The Licking county commissioners, with rare intelligence in road building, evidently spared no money, but built it right and for all time. And why not? Why not build our country roads more like the railroads are built? There is no more reason why a country road should follow the natural grade of the country than there is for a railroad to go billowing over the rolling hills. It costs more, certainly; but it is worth the cost. We are in an experimental stage with our road building. We don't yet know as much about it as the Romans knew; or else we know but are not game to spend the money. Our American motto of speed stands us in poor

stead in this instance. We are too anxious to get results, and not willing to spend the time and money necessary. Many of our roads of today will have to be rebuilt before they are many years old; all of them will, unless there is systematic care taken of them, and repairs necessary to maintenance constantly made. But some day the rest of us are going to grapple the subject as have the Licking county commissioners. And when we do it will be a step forward worth a score of years of experimenting."

## Health for Women.

Flat chested college graduates, with all sort of intellectuality, but with bad digestion and frazzled nerves, are hopelessly out of fashion today. So said President Mary E. Woolley of Mount Holyoke college, in a characteristic address to the National Education Association meeting at St. Paul the past week.

In primitive times women did manual labor in home and field. The men sat around making arrow-heads. The women must have been their physical equals.

Yet for hundreds of years the idea has prevailed that women were weaklings. It was not until bicycles and lawn tennis came along that out door sports were thought possible for them. They sat on the porch doing embroidery while their brothers played baseball.

In spite of Miss Woolley's optimistic statement, in women's colleges the old ideal prevails to an extent. The girls have more vigorous sports than formerly. But some colleges are still fearful of the word "athletics." They think "recreation" sounds much more ladylike. Inter-college athletics are not common for girls. Thereby many abuses are avoided. But a splendid incitement to physical culture is lost.

Still the modern girl, particularly the modern college girl, is gaining greatly in physical power. She can tire out nine-tenths of the men on long country walks.

The physically vigorous girl has a bright face and merry heart. She is personally attractive. People of this type disprove the old claim that college women don't marry and rear families. The time would seem ripe to encourage women to engage freely in every kind of athletics. Give them clothes in which they can run, and they may even beat the boys on the baseball diamond. A physically vigorous womanhood means the disappearance of much of the disease that depresses the human race.

The timely rains this week have changed the face of nature materially. Everything had become so parched and thirsty that growing things had become badly wilted, but the "abundant, refreshing rains" have resuscitated them and the greenness of the verdure is refreshing to the eye. One can now almost see the corn grow.

## By the Way

In these days of automobiles, some sluggish persons are still seen poking along the road behind a horse with a two-forty gait.

Contrary to the convictions of Grandma, it is not possible for a boy to learn to swim up attic through instruction from a correspondence school.

These days and nights are awfully hot and one can hardly find a place where he can sleep comfortably, but they say it is good for corn, so we are satisfied. We need the corn to make fat in hogs and to keep the human kind of hogs in good humor.

The word "tragedy" is variously defined. To a man it means death or disaster. To a woman either of these, or the discovery of her first gray hair.

In looking about for safe and easy jobs burglars pick first the houses that are guarded by dogs.

The low down white man is the negro's most severe critic.

Religion suffers its chief setback from the type of man who believes church and prayer-meeting are sufficient sources of amusement and entertainment for the young.

The summer girl isn't necessarily naughty just because she is always getting tanned.

Speaking of unusual men Zeb Hardee, who made a tour of England and the Continent last summer, has never mentioned the fact that he found ice water very difficult to procure.

A poor man's favorite load is a large family of children.

Gabe Petrone, who died not long ago, had a life insurance policy for a thousand dollars. The company in which the policy was written is now contesting payment on the ground that the amount is out of all proportion to the loss suffered by the Petrone family.

A woman is willing to pity a fallen sister, but she draws the line at forgiving her.

"Pa, what is a strategic error?"  
"That's the kind of error your father makes, my boy, when your mother is giving a party and he forgets to enter the house by the back door.—Birmingham Age Herald.

Burning Question.  
Gen. Rye is the Democratic nominee for governor of Tennessee. No wonder the Anti-Saloon League demands his attitude on liquor.—Pittsburgh Gazette Times.

Must Be Bad.  
"Why, say, a man's as safe in Mexico as he is in Chicago."  
"Is it as bad as that?"—Life.

And Then He Went.  
Boreleigh (at 11:15 p. m.)—When I was a boy I used to ring door-bells and run away.  
The Girl (yawning)—And now you ring them and stay.—Boston Transcript.

The Worst Ever.  
Madge—What do you think of this place as a summer resort?  
Marjorie—It's the limit! I rented a hammock for the season, and there isn't a single man here.—Judge.

When Wall Flower Was Plucked.  
At an evening party a very elderly lady was dancing with a young partner. A stranger approached Douglas Jerrold, who was looking on, and said:  
"Pray, sir, can you tell me who is the young gentleman with that elderly lady?"  
"One of the Humane Society. I should think," replied Jerrold.—New York Globe.

## Paragraphs

Same In Newark.  
Dashing and splashing, shrieking and speaking, tooting and scooting, humming and drumming, whirling and swirling, churning and turning, squawking and balking, rumbling and tumbling, banging and clanging, bumping and thumping, whizzing and sizzling, hurrying, scurrying folks off their feet. That's how the autos come down Main street. Howling and scowling, fussing and cussing, jumping and bumping, stumbling and fumbling, leaping and creeping, shaking and quaking, crouching and crouching, tearing and swearing, skipping and tripping, wrangling and jangling, falling and squalling, worrying and hurrying in full retreat. That's how pedestrians cross Main street.—Delaware Herald.

Kansas Leads.  
Statistics show that every eighth family in Kansas has an automobile, while in some counties the ratio is even larger and every fourth family has an automobile, a record that is not equaled by any state. This record coming from a state that a few years ago was under mortgage from one end to the other is most notable, indeed, and gives evidence of the great prosperity of the farmer within the last decade.—Lima Democrat.

Man's a Fool.  
As a rule, man's a fool. When it is hot, he wants it cool; when it is cool, he wants it hot; always wanting what he's got; I maintain, as a rule, man's a fool.—Exchange.

"I Love You."  
"I love you" is the sweetest phrase in the language. \* \* \* Most husbands seem to think that if they tell their wives they love them 1000 times the first day of marriage, 500 times the second, 250 times the third, and at least once a day for the whole first month, the wives must be convinced and happy all the rest of their lives. As well might they think a stream that has been fed by a spring a little while must go on running, though the spring be dammed up.—Zanesville Times-Record.

Tribute to France.  
Is there any human limit to the financial capacity of the French? In 1901 they amazed the world by oversubscribing a \$50,000,000 issue of government bonds 24 times. During

the 13 years intervening it has seemed as if they had been bled white by taxation. Yet now the new government loan of \$175,000,000 is underwritten by the French people 40 times over, and \$17,500,000 was spot cash. A nation that can achieve such a financial feat is no dying nation.—Spokane Spokesman Review.

Helping the Boys.  
The Chicago Association of Commerce has a committee which is taking a particular interest in schoolboys who are looking for jobs on farms or ranches. The committee has at this moment, 100 healthy, honest, industrious boys from good homes who would work for small pay in the country. It is advertising for the jobs. Here is only one instance of many. In every community, at this graduation and "commencement" period, there are hundreds and thousands of boys and girls who are looking for work.—Chicago Herald.

All things may come to those who wait, but most of us are mighty poor waiters.

TIRED.

Alas, I am weary of swatting, the effort seems useless and stale; for weeks I've been painfully trotting around after flies, on their trail; I've doped them with acid carbolec, I've slugged them and caught them with trap; and still on my forehead they frolic, when I lay me down for a nap. I hate the pestiferous friskers, which tickle my scalp with their toes; they're building their nests in my whiskers, they're picknicking now on my nose. They give me all kinds of diseases, by carrying germs to and fro; I pause here for seventeen sneezes—I've got the pneumonia, I know. I'm strong for those able physicians who tell us, "Keep swatting you guys, if you would improve the conditions, and drive from our country the flies!" And yet I am weary of swatting, I've thrown all my weapons away; I'm weary of tirelessly potting the germ bearers, day after day. Because, in the midst of my labors, I glanced from my ancestral hall, and saw that my indolent neighbors were doing no swatting at all. Unless we all labor, united, to chase every fly out of view, the graft is a scuphure whited, a sheer waste of muscle and sweat.

## Children's Sayings

TO YOU, READER.

Owing to the number of humorous, quaint or original sayings of children sent to this office by readers of the Advocate, publication of contributions may not be published for several days. The Advocate will be glad to have its readers send to the Children's Sayings Editor an outline of the amusing or interesting things that their children or their friends' children say. All communications must be signed by the writer, though signatures will not be printed if such a request is made. If the reader prefers, either Bell or Automatic phone may be used.

EUGENE WORTH

Master Eugene Worth, who today celebrates the first anniversary of his arrival in the world. He is the son of Mr. and Mrs. William Worth, of 374 North Stanbery street, Newark.

Little Frank Elliott is very much of an outdoor boy and a rainy day is therefore most irksome to him. During one of the recent rainy days he had figured a way out of his difficulties as he announced to his mother, "I'll have to go and get the hammerack." To satisfy her curiosity as to this strange, foreign-sounding thing Mrs. Elliott said, "Very well, go and get it." Presently he returned carrying a large almanac containing daily weather predictions and pointing a confident finger to one of the pages he exclaimed, "There, the man says it is going to quit raining."

Margaret was trying to learn the days of the week. She memorized from Tuesday to Sunday but had trouble in thinking of Monday. One day she was heard repeating to herself—"Tuesday, Wednesday, Thursday, Friday, Saturday, Sunday and then she washes"—Mrs. S.

C. N. M. sends the following story: There are three little boys in a well known Newark family aged 9, 7 and 5 years respectively. No girls. The mother said to me recently in the boys' presence: "I wish one of my boys had been a girl as she could later help me. The youngest remarked: 'Well, I'd just like to know who'd a 'binner. Tom wouldn't a 'binner. One of us boys would never a been a girl. I reckon, if now of us would a 'binner (been her).'"

A Barnesville little boy spelled woman "L-a-a-d-y."

## Compliments The Advocate.

(Zanesville Signal.)  
The Advocate, published every afternoon at Newark, has a most interesting department devoted to children and their sayings. Daily the photograph of some attractive Newark baby is presented and the one published in the Advocate last Monday was of interest to Zanesville as well as Newark being a photograph of William Frazier, son of Mr. and Mrs. J. W. Frazier of this city, but recently of Newark. Through the courtesy of the Advocate The Signal also presents the photograph of a department devoted to children and their sayings. ## Society

A very pretty afternoon party was given on Wednesday by Miss Lillian Rugg at her home in Locust street, Miss Rugg, entertaining out of compliment to Miss Helen Pigg, who will become the bride of Mr. Howard Jenkins in August.

The afternoon hours were informally spent and dolls to be dressed as brides and grooms were given. The guests, Miss Mary Louise Rank being awarded the favor for the evening creation. She presented the award to the honor-guest. Especially delightful was the luncheon arrangement. The table was centered with a willow vase containing sweet peas, and placed about were individual baskets of willow, containing the luncheon and decorated with the name cards bearing a tiny picture of the bride and groom-to-be and caught with sweet peas and ribbon.

The guests were Misses Pigg, Mrs. Lewis Meyers, Mrs. George Bowers, Mrs. Arla McCounghey, Misses Bess Tante, Amy Asbach, Mary Louise Rank, Ethel Southard, Dot Woodward, Helen Redman, Ethel Rutledge, Lillian Kammerer and Emma Kammerer.

**MCCARTHY-MARTIN.**  
Announcement is made of the marriage of Miss Anna Martin and Mr. Walter McCarthy, which was solemnized at the Church of the Blessed Sacrament on Tuesday morning.

The appointed hour was 8 o'clock and as the wedding march was played the bridal party took their places. The altar was prettily decorated and Rev. Father Charles Waterston read the marriage ceremony, following which the nuptial mass was celebrated.

The bride wore a dainty white voile gown with trimmings of Irish point lace and a picture hat of white lace to harmonize.

Immediately following the mass a wedding breakfast was served at the new home of the couple in Williams street.

Miss Thelma, daughter of Mr. and Mrs. William Kams of 96 Wing street, was twelve years old yesterday, and about eighteen of her little friends gathered at her home. A merry time was had by all. The afternoon was spent with swings, hammocks and various games. She received quite a number of presents, and late in the afternoon a delightful lunch was served.

Those present were Misses Thelma Kams, Elizabeth Feneckin, Fay Berry, Helen Kelforth, Helen Gray, Helen Warman, Nellie George, Rose Martin, Bertha Warman, Frances and Ethel Pollett, Adda Andrews, Florence Hahn. The out of town guests were: Misses Freda Whyde of Sonora, Edith Watson of Columbus and Eva Wallace of Uhrichsville.

Two prizes were awarded to the guests, Miss Fay Berry winning the first and Miss Nellie George second prize.

## MRS. BEIDEL TELLS WOMEN

How Lydia E. Pinkham's Vegetable Compound Kept Her in Health for 14 Years.

Shippensburg, Pa.—"It was several years ago that I started taking Lydia E. Pinkham's Vegetable Compound. I then suffered terribly every month. My husband bought me a bottle of it and it helped me right away. Then after my second child was born I had a female trouble, very bad, and I used Lydia E. Pinkham's Vegetable Compound and in a short time I was cured and have been in excellent health since. I always praise the Compound whenever I have an opportunity as I know it helped me and will help others. Lately I have given the Compound to my daughter and I wish all suffering women would take it and be convinced of its worth."

Mrs. JAMES A. BEIDEL, 113 N. Penn Street, Shippensburg, Pa.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record of being the most successful remedy for female ills we know of, and thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., seem to prove this fact.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

## A Home Remedy for Wrinkled, Saggy Skin.

The famous "Saxette" lotion recommended by beauty specialists for removing wrinkles and for reducing discolored pores, can be easily made at home. Ask your druggist for a bottle of powdered form, 1 oz. and 2 pint witch hazel. Dissolve the powder in the witch hazel and rub the face, neck and hands in the solution. Results are remarkable, and instantaneous. The wrinkles disappear, as well as crassened portions about the neck, cheeks and forehead. The tissue beneath the skin becomes firmer, and more solid. The complexion is bright, and the skin is free from blemishes. It is a safe and harmless wash lotion. Its continued use once a day for only a few days will make an average person look ten or fifteen years younger.

## JUST ONE APPLICATION AND THE HAIRS VANISH

(Modes of Today)

A harmless, yet very effective treatment is here given for the quick removal of hairy growths: Mix enough powdered delatone and water to cover the undesirable hairs, apply paste and after 2 or 3 minutes remove, wash the skin and the hairs have vanished. One application usually is sufficient, but to be certain of results buy this delatone in an original package.

## BANK FAILED; OLD OFFICERS TAKE INVENTORY

(ASSOCIATED PRESS TELEGRAM)

Columbus, July 15.—The Putnam County Banking company of Ottawa, one of the oldest banks in northwestern Ohio, voluntarily closed its doors today following a conference held Wednesday by bankers of that city and Examiners J. A. Holmes and W. A. Hollington of the state banking department.

The capital stock of the bank was \$25,000 and it had deposits of \$300,000. In a statement issued today by Superintendent of Banks Emory W. Lattanner, the view was expressed that the present management of the bank is not to blame for the trouble, which is ascribed to a lot of old loans and had illegal investments received from the old banking house when the bank became a state bank in 1901.

The bank was originally known as the banking house of A. V. Rice & Company, of which General A. V. Rice was the principal owner. Later it was owned by the latter and N. E. Mathews. They were the principal owners when it changed to a state bank. Mathews, who was a member of the constitutional convention and a Republican leader in Putnam county, has been acting president. Clark E. Rice, cashier, also one of the owners, is the Democratic leader in that part of the county. Their wives own a considerable part of the stock. Only a small proportion of stock is owned by persons not of these two families.

At 3 o'clock this morning the two principal owners and the officers took charge and will at once take an inventory of the assets and have claims filed by the depositors.

Bankers and the state department were unable to estimate at this time what can be realized from the assets.

The county has \$50,000 of public funds on deposit in the bank which are secured by personal bonds of well known citizens who will secure the county against loss.

## Any One Of the Vast Army

of former coffee drinkers can tell of freedom from coffee troubles since the change to Postum--

## "There's a Reason"

The coffee-drug, caffeine, is a common but often unsuspected cause of headache, nervousness, heart flutter, indigestion, and various other ills.

Postum is the easy, pleasant way back to comfort. It is free from caffeine or any other drug--has fine color--a delightful Java-like taste, and is within reach of all.

Regular Postum--must be boiled--15c and 25c pkgs.  
Instant Postum--a soluble powder--made in the cup with hot water instantly--30c and 50c tins.

Grocers sell both kinds, and the cost per cup is about the same.

## ITCHED FOR 20 YEARS, RESINOL CURED IN 10 DAYS

Baltimore, Md.—"About twenty years ago both my legs began to itch from ankle to knee. Little pimples came out. The itching and burning was something terrible. I would start to scratch and could not stop. I would even scratch through the skin and that of course would leave a sore which I was compelled to bandage.

"I tried several prescriptions and treatments, but received no relief. The treatments were cold water. I then began to have very little faith in anything and of course could do nothing but scratch away.

"After suffering constantly for twenty years, a friend recommended Resinol Soap and Resinol Ointment. From the very first application, I found relief, and was entirely cured in ten days. The itching and stinging sensations have ceased and my skin is as smooth as a child's." (Signed) Charles Warner, 1123 N. Stricker St.

Every druggist sells Resinol Soap (25c) and Ointment (50c and \$1).

## SPEED KINGS MEET TO RACE FOR CHAMPION

(Associated Press Telegram)

St. Louis, July 16.—The first of a  
 series of races to decide the cham-  
 pionship of the United States will be  
 the feature of the second day of the  
 Federation of American Motor  
 Cyclists in session here. The races  
 will be run on the one mile dirt track  
 at Maxwilton, in St. Louis county,  
 and an unusually large number of  
 riders have entered.

Several accidents of minor nature  
 were reported. P. E. Zimmerman of  
 Rochester, N. Y., ruptured a blood  
 vessel when he was thrown from his  
 machine at Sullivan Indiana and was  
 forced to abandon the trip to St.  
 Louis. G. J. Wagner, of the same  
 city, was thrown at Hammond, Ind.,  
 and suffered a broken nose and lacer-  
 ations of the face, but continued his  
 ride.

## FAMILIES WERE FRIENDLY SAY THE WITNESSES

(Associated Press Telegram)

New Haven, Conn., July 16.—The  
 friendly relations of the families  
 of James Plew and William O. Wake-  
 field, while both men were employed  
 on a farm in Middlebury, were de-  
 scribed to the jury today at the sec-  
 ond trial of Mrs. Bessie J. Wakefield,  
 charged with murder of her husband  
 in June of last year.

Plew died upon the scaffold last  
 March for the actual killing of Wake-  
 field.

Dwight L. Wheeler, the farmer  
 who employed both Plew and Wake-  
 field, also told of the occasion when  
 Mrs. Wakefield left her husband and  
 went to Waterbury. Wheeler went  
 to Mrs. Wakefield and asked her  
 again to live with her husband, but  
 she refused on the ground that he  
 was "too dirty."

On cross-examination Wheeler ex-  
 plained that Mrs. Wakefield's reason  
 was not surprising as he, the witness  
 thought, "that Wakefield was not the  
 neatest man in the world."

During an illness of the wife of  
 Plew, Mrs. Wakefield acted as her  
 nurse.

## MANY APPLICANTS FOR NEW POSITION AT CITY BUILDING

An ordinance was passed at the  
 council meeting July 6, creating the  
 joint position of janitor of the new  
 city building and sergeant-at-arms of  
 the city council at a salary of \$50 per  
 month. The incumbent will be an  
 appointee of the service director, to  
 be confirmed by the council, and when  
 the ordinance was passed, it was in-  
 tended to take effect as an emergency  
 measure.

There are several applicants for the  
 position, but Service Director W. C.  
 Christian said this morning that he  
 will probably not make a selection  
 until after council meets next Monday  
 night, as he believes the ordinance  
 passed is not comprehensive enough  
 to cover the appointment, or rather  
 too comprehensive as it does not re-  
 peal anything already in force.

Among the applicants are W. D.  
 Gilbert, present sergeant-at-arms; S.  
 M. Brown, Fred Rannenberg, A. A.  
 Lowry and John Brennan.

"I haven't had a bite for three  
 days," whined the hobo. "Here,  
 Tike!" called the woman to her dog,  
 "Give this poor man a bite."

## FEDERAL LEAGUE SCORES FIRST BIG VICTORY

(Associated Press Telegram)

Chicago, July 16.—The Federal  
 League scored its first big legal vic-  
 tory in its war on organized base-  
 ball today when the appellate court  
 held the ten days' clause in the ball  
 players contract "null and void."

The ruling was given in a court ac-  
 tion which reversed a superior court  
 decision enjoining Pitcher George M.  
 Johnson, the Winnebago Indian, from  
 playing with the Kansas City Fed-  
 erals.

The injunction issued by Judge  
 Fell, in the superior court, and  
 served on Johnson while he was par-  
 ticipating in the game here, was  
 granted at the request of the Cincin-  
 nati Nationals whose ranks Johnson  
 left to join the Federals.

Federal league officials here were  
 pleased with the decision and de-  
 clared it would result in the addition  
 to their playing corps of dozens of  
 stars. At the same time it is said  
 the ruling gives base ball players a  
 great leverage in making demands  
 from the clubs.

The decision from the appellate  
 court was signed by Justice Edward  
 C. Brown and Frank Baker, Justice  
 William H. McSurley, dissenting.  
 The opinion will be filed later and  
 none of the other justices would dis-  
 cuss any of the findings.

## MASSILLON

(Continued from Page 1.)

should be relieved of the duty of de-  
 livering for city carriers or paid ex-  
 tra for that service. The resolutions  
 further recommended filling of rural  
 carrier vacancies in the same man-  
 ner as city carriers are chosen.

Uniform labels on newspapers and  
 periodicals was endorsed, as was also  
 the Riley bill, pertaining to equip-  
 ment allowance for rural carriers.

The committee recommended di-  
 viding the state districts for organi-  
 zation purposes. Uniform mail  
 boxes were favored.

On the grounds proposition the  
 convention favored mandatory grad-  
 ing in the spring, with an adequate  
 crown for complete drainage, with  
 more specific application of the law  
 with respect to the use of the road  
 drag, and a heavy penalty for neglect  
 of duty on the part of road officials.

It was recommended that the  
 president appoint a committee of  
 three to meet with the state com-  
 mission for codifying of the laws  
 of Ohio, to work with the state  
 department for bettering and main-  
 tenance of the roads.

The credentials committee reported  
 80 counties organized with 222 votes,  
 and 112 necessary to choose for  
 president, A. E. Wright, Hamilton  
 county; C. G. Burdett, Guernsey  
 county, and R. J. Johnson, Logan  
 county, were appointed tellers.

Wayne county offered to fill out the  
 six votes necessary to give the Ohio  
 delegation 21 votes in the national  
 convention. Columbiana county then  
 came forward with an offer to take  
 half that number.

The laws and press committee also  
 made its report, while other officers  
 submitted their annual reports dur-  
 ing the early part of the morning  
 session.

Many of the delegates departed  
 Wednesday night, and others Thurs-  
 day morning. The majority, however,  
 remained until after the convention

closed, and took afternoon and night  
 trains to their homes.

National delegates were chosen  
 from the following nominees. The  
 nineteen having highest vote, were  
 selected and the remaining nineteen  
 as alternates. State Secretary Rat-  
 cliffe received the highest vote, which  
 would have entitled him to the dele-  
 gate-at-large had not the retiring  
 president been elected to that post.

B. B. Morris, J. F. Byers, W. J.

 son, John W. Barker, L. I. Staley, I. N.

 J. F. Rapp, E. E. Hammond, Bert  
 Winters, H. V. Holden, D. E. Bowers.

Hon. A. P. Sandles, head of the  
 state agricultural commission, gave  
 some figures in his address to the  
 carriers, Wednesday afternoon, to  
 show the startling record of past  
 years in the emigration from Ohio,  
 and showed how, by prompt action  
 through legislative channels this  
 great evil to other states has been  
 considerably checked.

He declared that within the prov-  
 ince of such organizations as the  
 Ohio Rural Letter Carriers' associa-  
 tion, by its continued efforts to  
 make the farm life attractive, with  
 good mail service and an effective  
 agitation for state wide highway im-  
 provement, not only to keep Buckeye  
 people in Ohio, but to increase the  
 population of the state wonderfully  
 within the period of a very few years.

He emphasized the importance of  
 increased population as a means of  
 increasing land values, advancing  
 agriculture and general progress  
 throughout the commonwealth.

His address was characteristically  
 instructive and interesting to the  
 delegates, who frequently interrupted  
 him with applause.

Judge W. A. Irvine spoke to the  
 convention at length on the promi-  
 nence of the rural delivery system  
 as a feature of modern country life,  
 in comparison with some of the in-  
 conveniences of the farm in earlier  
 days, lauded the carriers for their  
 interest and devotion to duty, and  
 entertained them with a number of  
 witty anecdotes. His address, also,  
 was enthusiastically received.

Much of the afternoon session was  
 devoted to "shop talk," or a discus-  
 sion of first, second, third and fourth  
 class mail. C. O. Ayers, of Loudon-  
 ville, presided during the discussion  
 and numerous bits of important in-  
 formation for carriers developed as  
 a result of the round table chat.

In course of the afternoon it was  
 announced that an effort will be  
 made to run a special Ohio train to  
 the national convention of rural let-  
 ter carriers in Washington, D. C. Ar-  
 rangements were made for District  
 Passenger Agent Spauld, of the Ches-  
 apeake & Ohio railroad, to display  
 views along the route, during the  
 banquet Wednesday night.

The banquet hall of the First M.  
 E. church was filled with delegates  
 and visitors at the appointed hour  
 Wednesday night, and for two hours  
 the gathering listened to interesting  
 short talks and funny stories offered  
 by the speakers. "Official Humor-  
 ist" Collins presided as toastmaster,  
 and his sallies at various delegates  
 as they were called upon kept the  
 gathering in uproarious laughter  
 most of the time.

The box lunch provided by ar-  
 rangement of the Licking county as-  
 sociation's entertainment committee,  
 was a much appreciated feature.

The talk on the Washington trip  
 brought out considerable enthusiasm  
 with indications that Ohio's twenty

delegates to the national convention,  
 most of them accompanied by their  
 families to take advantage of the  
 sight-seeing trip to the national  
 capital.

The legislature of Ohio, on May 10,  
 1911, Volume 102, Ohio Laws, page  
 132, established a distinct reform in  
 the reversal of verdicts and judg-  
 ments on account of technical errors  
 when substantial justice had been  
 done the parties. This law was writ-  
 ten by Edward Kibler, candidate for  
 judge of the court of appeals in this  
 district, and its passage was personally  
 urged by him before committees of  
 the legislature. The law was approved  
 by Governor Harmon. It provides that  
 reviewing court shall not reverse ver-  
 dict and judgments which are right,  
 no matter what or how many techni-  
 cal errors may have occurred at the  
 trial in the court below, but that the  
 verdict or judgment must be affirmed,  
 where substantial justice has been  
 done, and requires the reviewing court  
 to ignore the errors and affirm the  
 judgment. This law has greatly re-  
 duced the amount of useless litigation  
 and introduced a conspicuous element  
 of common sense in the administra-  
 tion of the law.

Mr. Kibler had the law introduced  
 in the legislature of 1908, but it failed  
 to pass, but his persistency in urging  
 its passage in successive legislatures  
 was finally rewarded.

This law has especial application to  
 the court of appeals, which is largely  
 a reviewing court, and renders Kibler  
 of peculiar fitness to enforce this law,  
 and put an end to much useless, pro-  
 longed and expensive litigation.

**JUDGE SHIELDS**  
**IN AUTO WRECK.**  
 Canton, July 14.—Six persons  
 were injured today when an automo-  
 bile owned by A. M. McCarty, of 517  
 Market avenue, carrying a party of  
 members of the Stark County Bar to  
 Congress Lake, collided with an au-  
 tomobile driven by Mrs. P. C. Sparks  
 of Akron.

Judge R. S. Shields, of the Fifth  
 District Court of Appeals, one of  
 the party had his nose broken.

## HUERTA RESIGNS

(Continued from Page 1.) Human, American consul at Saltillo to inform General Carranza, that if he arrives at a peaceful agreement with the Carbajal government for the transfer of power at Mexico City, recognition will be extended to the resultant administration.

Should Carranza refuse to complete the settlement of the internal conflict by diplomatic means and insist on a forcible entry into Mexico City, recognition will be deferred until there is a legal election.

American forces according to present plans will not be withdrawn from Vera Cruz until a government is recognized.

This determination was reached by President Wilson and Secretary Bryan after the viewpoint of the South American mediators was laid before them.

Under the terms of a protocol signed at Niagara Falls, the United States, Argentina, Brazil and Chile went on record promising two Mexican factions. To vitalize that protocol the Washington government and the mediators now are bending their efforts.

The first move toward affecting a transfer of government to the constitutionalists already has been taken by Provisional President Carbajal. The three peace commissioners—on their way to confer with Carranza or his division commander—General Obregon are thoroughly constitutionalists in their political beliefs and were conspicuous members of the Maderista party. They also are close friends of Carbajal.

He has sent them to confer with the constitutionalist chief, because he believes they can obtain satisfactory terms for the transition of the government.

Washington diplomats generally received messages from their legations at Mexico City today confirming the resignation of General Huerta.

Minister Suarez of Chile, said it was his belief that Carbajal merely wanted guarantees that the lives and property of the people in territory will be conserved through a general amnesty proclamation.

When that was arranged, he believed, a transition would be promptly effected.

Rafael Zubaran and Luis Cabrera, two of General Carranza's representatives here said they were unaware what would be the next move in the situation but thought the sending of the Carbajal commission to confer with Gen. Carranza probably would have tangible results.

The only cloud on the horizon of peace in Mexico was the uncertainty about the attitude of General Villa. Information from reliable sources was that he is concentrating his forces in Chihuahua, and northern Mexico, so as to make vigorous demands on Carranza. It was reported that when the conference of generals is called at Mexico City after General Carranza enters there, Villa adherents may attempt to substitute another first chief for Carranza.

Constitutionalists with Carranza sympathies make no secret of the fact that they are apprehensive of Villa's attitude.

For that reason they are working hard to obtain recognition for Carranza's government so that the embargo on arms may be sharply enforced along the border and any counter revolution nipped in the incipient stage.

## MAKE PREPARATIONS TO RETURN TO THE MEXICAN CAPITAL

(ASSOCIATED PRESS TELEGRAM)

Vera Cruz, July 15.—With the resignation of General Huerta from the provisional presidency there is every evidence among American and other foreign refugees here of an immediate movement to return to the capital and points in the interior where abandoned interests are awaiting attention.

Many Americans who came to Vera Cruz during the general exodus and refused to proceed further pending some adjustment of the affairs of Mexico, have expressed their intention of returning and many are making actual preparations to leave at once for their former homes.

That the removal of Gen. Huerta means permanent peace to Mexico is doubted in some quarters but it is generally believed there will be a subsidence of anti-American sentiment, and at least a period of relief from the menace of actual revolution.

## RESIGNATION IS WELCOMED BY THE BRITISH PUBLIC

(ASSOCIATED PRESS TELEGRAM)

London, July 15.—General Huerta's resignation of the provisional presidency of Mexico is regarded as a victory for President Wilson's policy and is welcomed by the British public and in official circles here as a possible solution of the Mexican problem. A peaceful end of the Mexican situation is greatly desired here on account of the large British financial interests in the country. Most of the London newspapers however,

## Washington Officials Are Jubilant Over Prospect For Early Adjustment of Trouble

(ASSOCIATED PRESS TELEGRAM)

Washington, July 16.—With General Huerta's meteoric career in Mexican politics at an end, President Wilson and his advisers today awaited the outcome of the mission of three federal envoys who started from Mexico City for Celaya to arrange with the constitutionalists for peaceful entry into the capital. The committee consisted of three former members of the chamber of deputies. On what basis they hoped to negotiate for the transition of the power was not indicated. Many diplomats in Washington, however, thought Francisco Carbajal, who was sworn in as successor to Huerta might be disposed to accept the terms of the plan of Guadalupe, which provided for the naming of Carranza, constitutionalist chief, as provisional president, pending elections throughout the republic.

All doubt in Washington over the course Huerta might pursue after his resignation, was dispelled today by the report that he, with his faithful war minister, General Blanquet, had left Mexico City aboard a train, presumably for Puerto Mexico. There, it

was believed, he would follow in the steps of Porfirio Diaz and board a ship for Europe. Huerta's departure took place after he had figured as the center of an impromptu reception in a Mexico City cafe.

While President Wilson and Secretary Bryan were silent after the announcement of Huerta's resignation, they were jubilant over prospects for early adjustment of the problem that has vexed two administrations and threatened to plunge the United States into foreign war. The Washington government will not recognize the new provisional president, but the understanding is that he will hold office until arrangements can be made for Carranza's occupation of Chapultepec castle.

Carbajal, it was believed, hoped only for the declaration of general amnesty for the forces that have opposed the northern armies and certain property guarantees. The constitutionalists have declared they would not enter into negotiations with Huerta's successor but hope was confidently expected that some basis of parleys might be found by which military conquests of the capital could be averted.

One plan suggested for the peaceful transfer of control without involving recognition of the federal administration contemplated the resignation of Carbajal and the assumption of authority by local officials in Mexico City. They in turn, would surrender their respective power, upon the arrival of the constitutionalists.

The South American mediators who brought about the cessation of hostilities between the United States and the Huerta government, would launch their efforts, it was believed, to clear the way for conferences between the two Mexican factions, aimed at avoiding the possibility of further bloodshed. Carranza, they thought, would gain by entering into such conferences, because he might, by that means, guarantee for himself, immediate recognition of the Washington and South American governments.

However, should he refuse to parley and insist upon hurrying in army at the tottering Mexican capital, probably recognition would be withheld until elections took place throughout the republic. Huerta's envoys who took part in the Niagara proceedings, still remained in New York at the call of the Mexican City government, if Carbajal should decide to attempt negotiations with the constitutionalists through another channel than Celaya.
